Project Experience

Integrated Development Environment Redesign, Onepanel

March 2021 - April 2021, Remote Client Project

- UX Research and UX/UI Design on a team of 3 for a 3 week sprint.
- As a team, we designed an integrated development environment (IDE) for computer vision startup Onepanel.
- We conducted thorough user research conducting interviews and contextual inquiries with machine learning scientists.
- We worked closely with our client to meet their goals as well as their users.
- In under 3 weeks we conducted and synthesized our research and designed 2 iterations of wireframes for our client including a clickable prototype.

Electric Dusk Drive-In / Responsive Website Redesign

February 2021 - March 2021, Remote Concept Project

- UX Research and UX/UI Design on a team of 4 to redesign the website to be responsive for mobile and desktop.
- We conducted thorough user research and created a functioning hi-fi mobile and desktop prototype.
- Users were able to perform tasks much quicker and easier without frustration or confusion.

Left Bank Books / Website Overhaul

January 2021 - February 2021, Remote Concept Project

- UX Researcher and UX/UI Designer on redesigning the bookstore website providing a logical experience with a minimalist design.
- I conducted user research and created a mid-fi desktop prototype.
- With my design, users could browse books and quickly make a purchase without error.

Work Experience

Lead Valet, River's Edge Hotel and Spa

February 2009 - March 2020, Portland, OR

- Rapid positive interactions with guests to ensure a great experience
- Safely parked 50-100+ vehicles daily while acting as bellman/concierge to all guests
- Worked with many very high profile guests while providing equal attention to all other guests
